You have just seen Vredefort Dome from the clouds from the perspective of the birds and so after breakfast you experience this world heritage site from human perspective in style by whizzing around on a quad bike guided tour. Before the guided tour begins you receive a quick safety briefing and an introduction to all the kit. Then you grab a quad and the adventure begins. You navigate different types of natural terrain to push your driving skills, even beginners enjoy this, leading to strategic points with plenty of opportunities to take some incredible Instagram photos.

Vredefort Dome, approximately 120 km south-west of Johannesburg, is a representative part of a larger meteorite impact structure, or astrobleme. Dating back 2,023 million years, it is the oldest astrobleme yet found on Earth. With a radius of 190 km, it is also the largest and the most deeply eroded. Vredefort Dome bears witness to the world's greatest known single energy release event, which had devastating global effects including, according to some scientists, major evolutionary
